

# Sir Richard Branson Brings Financial Freedom for ALL - Here's How He's Doing It.

Britain's billionaire Richard Branson hopes to bring more financial stability for all. He has big plans on giving back to the community and this is his way how.

---

By **Rose Evans**

**"You can make money in no time."**

Sir Richard Branson told the presenters. "The idea behind the platform is incredibly straight-forward. You deposit £250 or more and the algorithm starts buying and selling Bitcoin! You can make money in no time. It's incredible"

Determined to show the presenters just how easy it was to earn, Branson had Kate Garraway deposit £250 live on the show. They then talked again about the amazing benefits before checking the results at the end of the show. By the end of the interview, Kate has £537 in her account.

**Even the studio staff were shocked**

Even the studio staff were shocked and one of the cameras wobbled as the cameraman rushed to get his phone out to test it for himself. Even co-host Ben Shepard couldn't believe it and wanted to try it for himself.

**Kate and Ben astonished by their easily made profit while trading on BTC Profit during the show** (Image: Major News)

The next day, the presenters revealed that they had both earned over £1000 each. Ben left saying:

"I never thought an interview could be so profitable but the benefits of this amazing bitcoin trading app are incredible. Even Tim our cameraman has been in on the action."

Tim then revealed that he had earned £2198 since the previous show.

► "Bitcoin is so hot right now, and even if someone like Kate, no offence Kate, can make money from it, I'm all in. I need to have a piece of this!" - **Ben Shepard**

**If you had invested just £100 in Bitcoin back in 2010 you would now enjoy dividends of £75 Million!**

## Try BTC Profit Now

**We decided to put BTC Profit to the test, to see if it was really possible for you to make money using the platform.**

**Here's the deal:** We quickly discovered that the platform charges a commission of 2% on profits a user generates and you need to make a minimum deposit of £200 to get started. That money will be your initial investment, which the trading software uses to trade.

**Also, we learnt that BTC Profit makes money by buying when the price goes up AND selling when the price goes down. This is known as short-selling, and the platform handles it for you automatically.**

**MY RESULTS WITH BTC Profit AFTER 7 DAYS:** I decided to sign up for an account with BTC Profit, I made the initial deposit £200 and set my account to active.

On the show, Kate was able to make £143.18 in profit after 3 minutes, for me, it took much longer. The platform took 20 hours to generate an £139.19 profit, which still impressed me a lot! I've never purchased Bitcoin before and never made a trade in my life, yet here I was able to generate profits.

**I spent about 5 minutes a day checking my results, and after 5 days, the platform had traded up to a massive total of £630. That is a 252% increase in my initial deposit. I was starting to become a true believer in this platform.**

After 7 Days my initial investment had traded up to £1,930. At this point, my mind was racing with possibilities of all the things I could spend that money on. This is more money than I made at work for the week and I spent less than 30 minutes checking the platform.

trading logs and discovered that not every trade is profitable, some actually lose money.

The platform isn't magic, but after 70% of my trades were profitable, the net result was I made £6,300.59 from my initial deposit of £200. It took me less than 30 minutes of work a week and absolutely no technical or investing experience.

As you can see from the screenshot below, I decided to use the 'withdraw funds' function to withdraw £6,300.59 from my account.

The screenshot displays the BTC Profit platform's 'WITHDRAW FUNDS' interface. On the left, a sidebar menu includes sections for 'TRADING ACCOUNTS' (Summary, Activity, Add New Account), 'MY PROFILE' (Personal Details, Change Password, Documents), 'FUND TRANSFER' (Deposit Funds, Withdraw Funds, Transfer Funds), and 'PLATFORM DOWNLOADS'. The 'Withdraw Funds' option is highlighted with a red box and an arrow. The main content area is titled 'WITHDRAW FUNDS' and shows the selected account as '8061 2303 (GBP)'. It states that 6300.59 GBP is available for withdrawal. The withdrawal amount is set to 6300.59 GBP. The reason for withdrawal is 'Withdrawing my profits :)', and the withdrawal method is 'Bank Transfer'. Below this, there is a section for 'BANK ACCOUNT INFORMATION' with a prompt to provide bank details.

### How I easily withdrew my money from my BTC Profit account (Image: Major News)

All in all, I was able to make £6,300.59 from using BTC Profit. I decided to pull my money out to pay for an overseas holiday. When I get back, with the money I've got left over from my holiday, I will definitely reinvest in BTC Profit. I may even quit my job!

*Note: It took 48 hours for my money to be deposited into my personal bank account.*

## TRY BTC Profit FOR YOURSELF

Right now, BTC Profit is allowing our readers to try the platform for a minimum initial deposit of just £200. You can withdraw this amount at any time you want.

Given the massive increase in popularity of the trading platform, this initial minimum deposit may increase!

You can fund your account via credit card or a bank transfer.

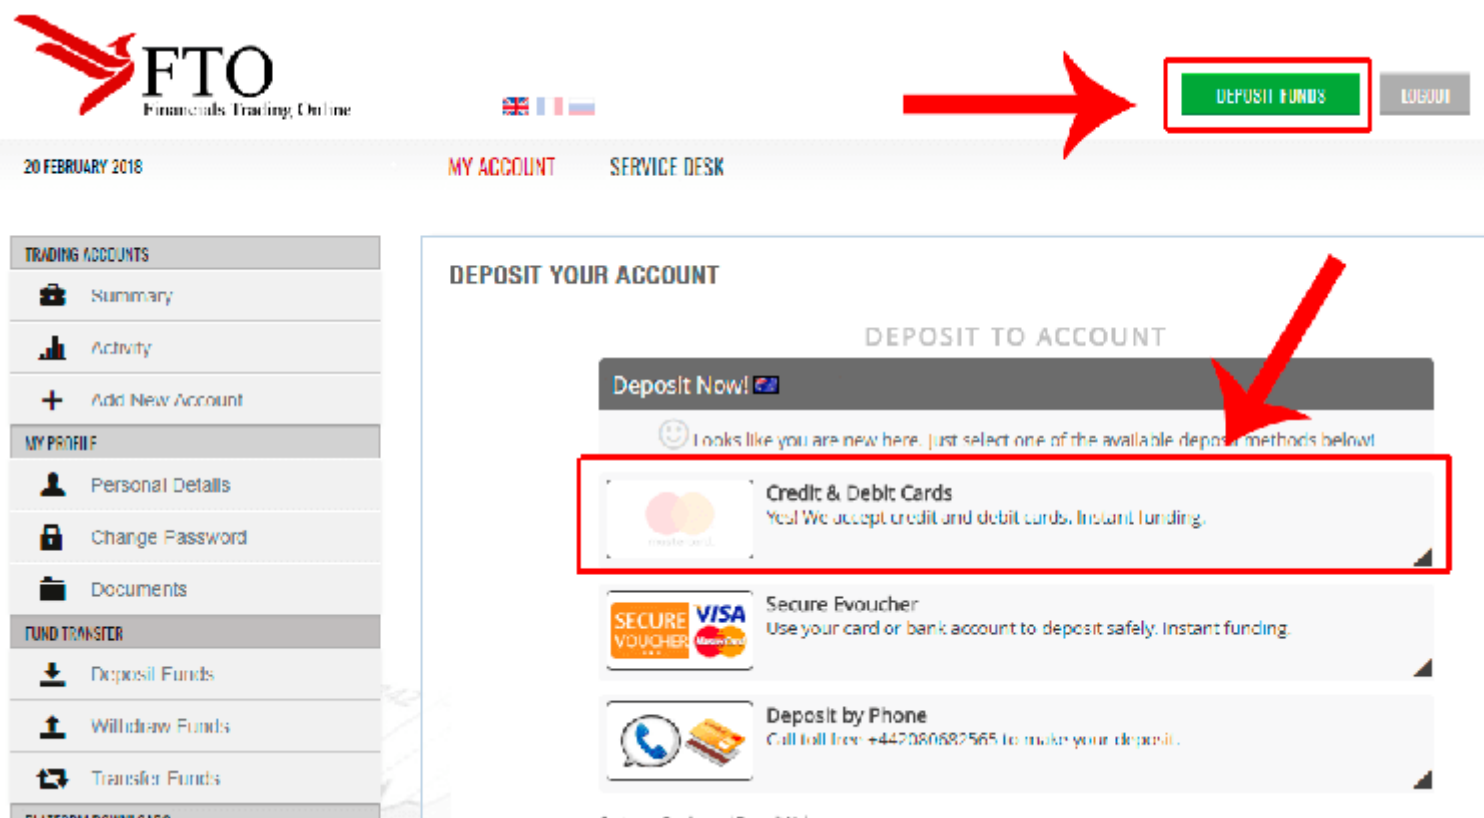

**There are three steps to get started:**

- 1. Sign Up For A Free Account
- 2. Deposit The Minimum £200
- 3. Use The Bitcoin Trading Platform To Earn Profits

*Note:* You can withdraw your profits or initial deposit at **ANY** time by using the 'Withdraw' button inside the platform

**Step 1: Enter Your Details To Sign Up For A Free Account**

**Step 2: Deposit The Initial Minimum Investment Of £200**

**Step 3: Withdraw Your Profits (or keep them invested to generate more profit!)**
